Information Service Manual

For King Mongkut's University of Technology Thonburi students

This manual has been prepared to introduce the information services of King Mongkut's University of Technology Thonburi, provided by the Computer Center. It outlines the services and basic usage methods of various information systems and services available to students throughout their studies at King Mongkut's University of Technology Thonburi.

KMUTT Account

The key to accessing various information services of the university.

KMUTT Account is used to verify identity when accessing the information systems of King Mongkut's University of Technology Thonburi and the information services provided by the Computer Center.

All KMUTT students will receive a KMUTT Account once they are assigned a student ID and their student records are properly registered. The account is in the format name.surname@kmutt.ac.th (the first four characters of the surname). In case of duplicates, additional characters from the surname will be added. Students must register to create their own password.

In case you forget your KMUTT Account password ?..

you can reset it yourself on the website:

https://k-accounts.kmutt.ac.th/recovery

1. Enter your student ID in the “Username” field and click the “Check” button.
2. Check your personal email provided and confirm it.
3. The system will send a link to the personal email provided. Click the received link and set a new password.

In case of changing the password,

it can be changed by yourself on the website: **https://k-accounts.kmutt.ac.th/change**

Authentication

Authentication refers to the security measures for accessing the information systems of King Mongkut's University of Technology Thonburi (KMUTT) and the information services provided by the Computer Center. It is a process for verifying the identity of users accessing general systems, using a username and password. There are two types of authentication as follows

Authentication by using the "Student ID" as the username.

Example

Username : 66103874001
Password : xxxxxxxxx

Examples of information systems and information services include

- NewACIS System
- WiFi KMUTT-Secure, KMUTT-SecureN
- LEB2
- VPN

Authentication by using the "KMUTT Account" as the username

Example

Username : name.surname@kmutt.ac.th
Password : xxxxxxxxx

Examples of information systems and information services include

- WiFi eduroam
- MOD LINK Application
- Microsoft 365
- Outlook

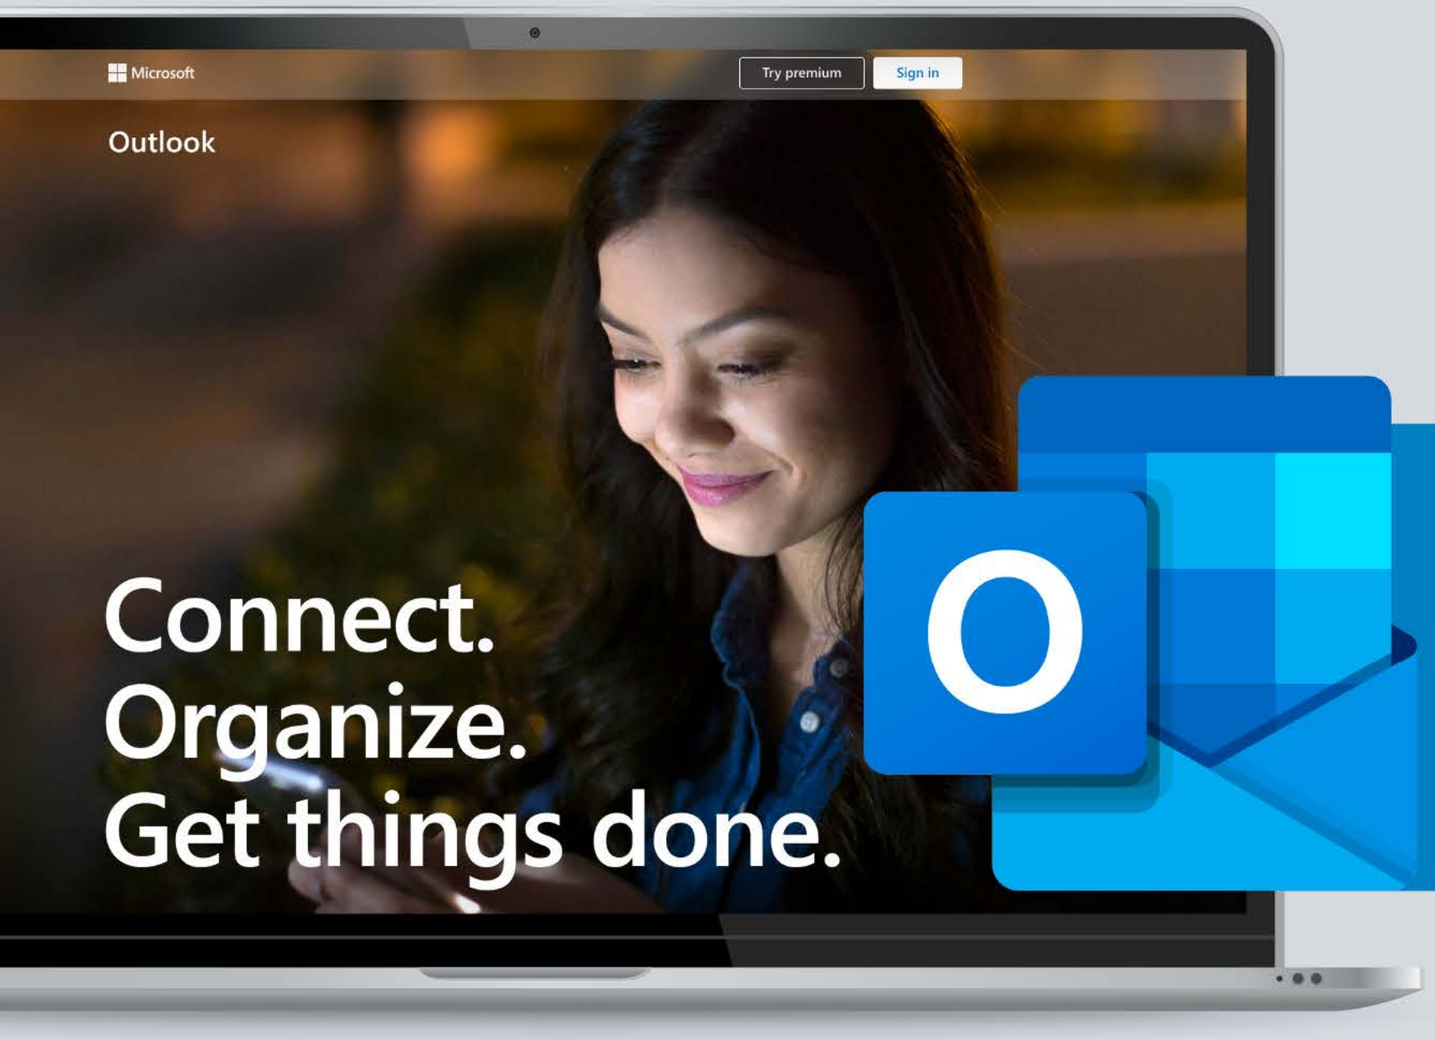
KMUTT e-Mail

KMUTT e-Mail is the official email of King Mongkut's University of Technology Thonburi, provided under the @kmutt.ac.th domain for all current students. Graduates can continue to use their KMUTT email after graduation through Microsoft Outlook

e-Mail Account is provided and managed by the Computer Center to facilitate the exchange of important information for the university. It is in the format of **name.surname@kmutt.ac.th** (the first four characters of the surname). In the case of duplicates, additional characters from the surname will be added.

You can log in using the student's **name.surname@kmutt.ac.th**

on the website: **https://outlook.office.com**



It features a variety of collaborative tools, such as

- The ability to send and receive messages and attachments, with a limit of 25 MB per message.
- A mailbox storage capacity of 10 GB.
- The option to create appointments and events on the calendar, which can send reminders for scheduled meetings.

The service policy of KMUTT may change according to the policies of the product owners.

KMUTT Wi-Fi

KMUTT Wi-Fi service for students of King Mongkut's University of Technology Thonburi. To support comprehensive access to the university's network systems throughout the university campus.

Divided into three network names based on frequency (SSID) as follows

KMUTT-AIS

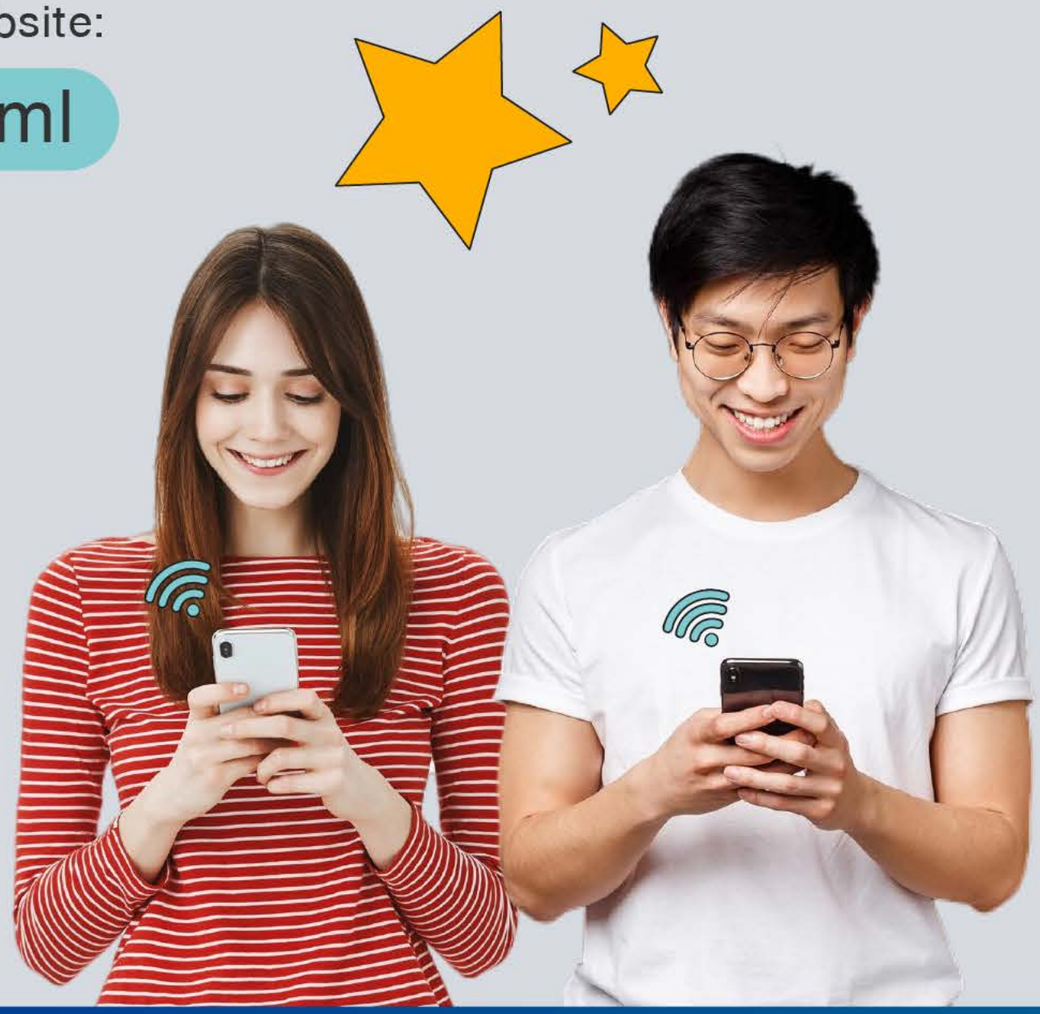
is for the public areas on the ground floor of every building within the Bang Mod campus.

KMUTT-SecureN
and
KMUTT-Secure

are for other floors of every building across all educational areas.

You can learn how to setting your profile on the device on the website:

https://cc.kmutt.ac.th/connect-wifi.html



Eduroam

Edurome is a global roaming network service
for education and research that facilitates students
from member institutions to access wireless networks.

Students of King Mongkut's University of Technology Thonburi
who are on a mission at other member institutions can access the internet
through the wireless network service named eduroam at those institutions.

You can find instructions for setting up the profile on your device at the website:

https://cc.kmutt.ac.th/eduroam.html

KMUTT VPN

Virtual Private Network (VPN) services for students of King Mongkut's University of Technology Thonburi.

KMUTT VPN Service is a virtual private network service that operates over public networks from various ISPs, allowing students to access university systems as if they were on campus. This includes services such as Remote Desktop, among others.

You can learn how to set up the profile on your device by visiting the website:

https://cc.kmutt.ac.th/VPN.html

Microsoft 365

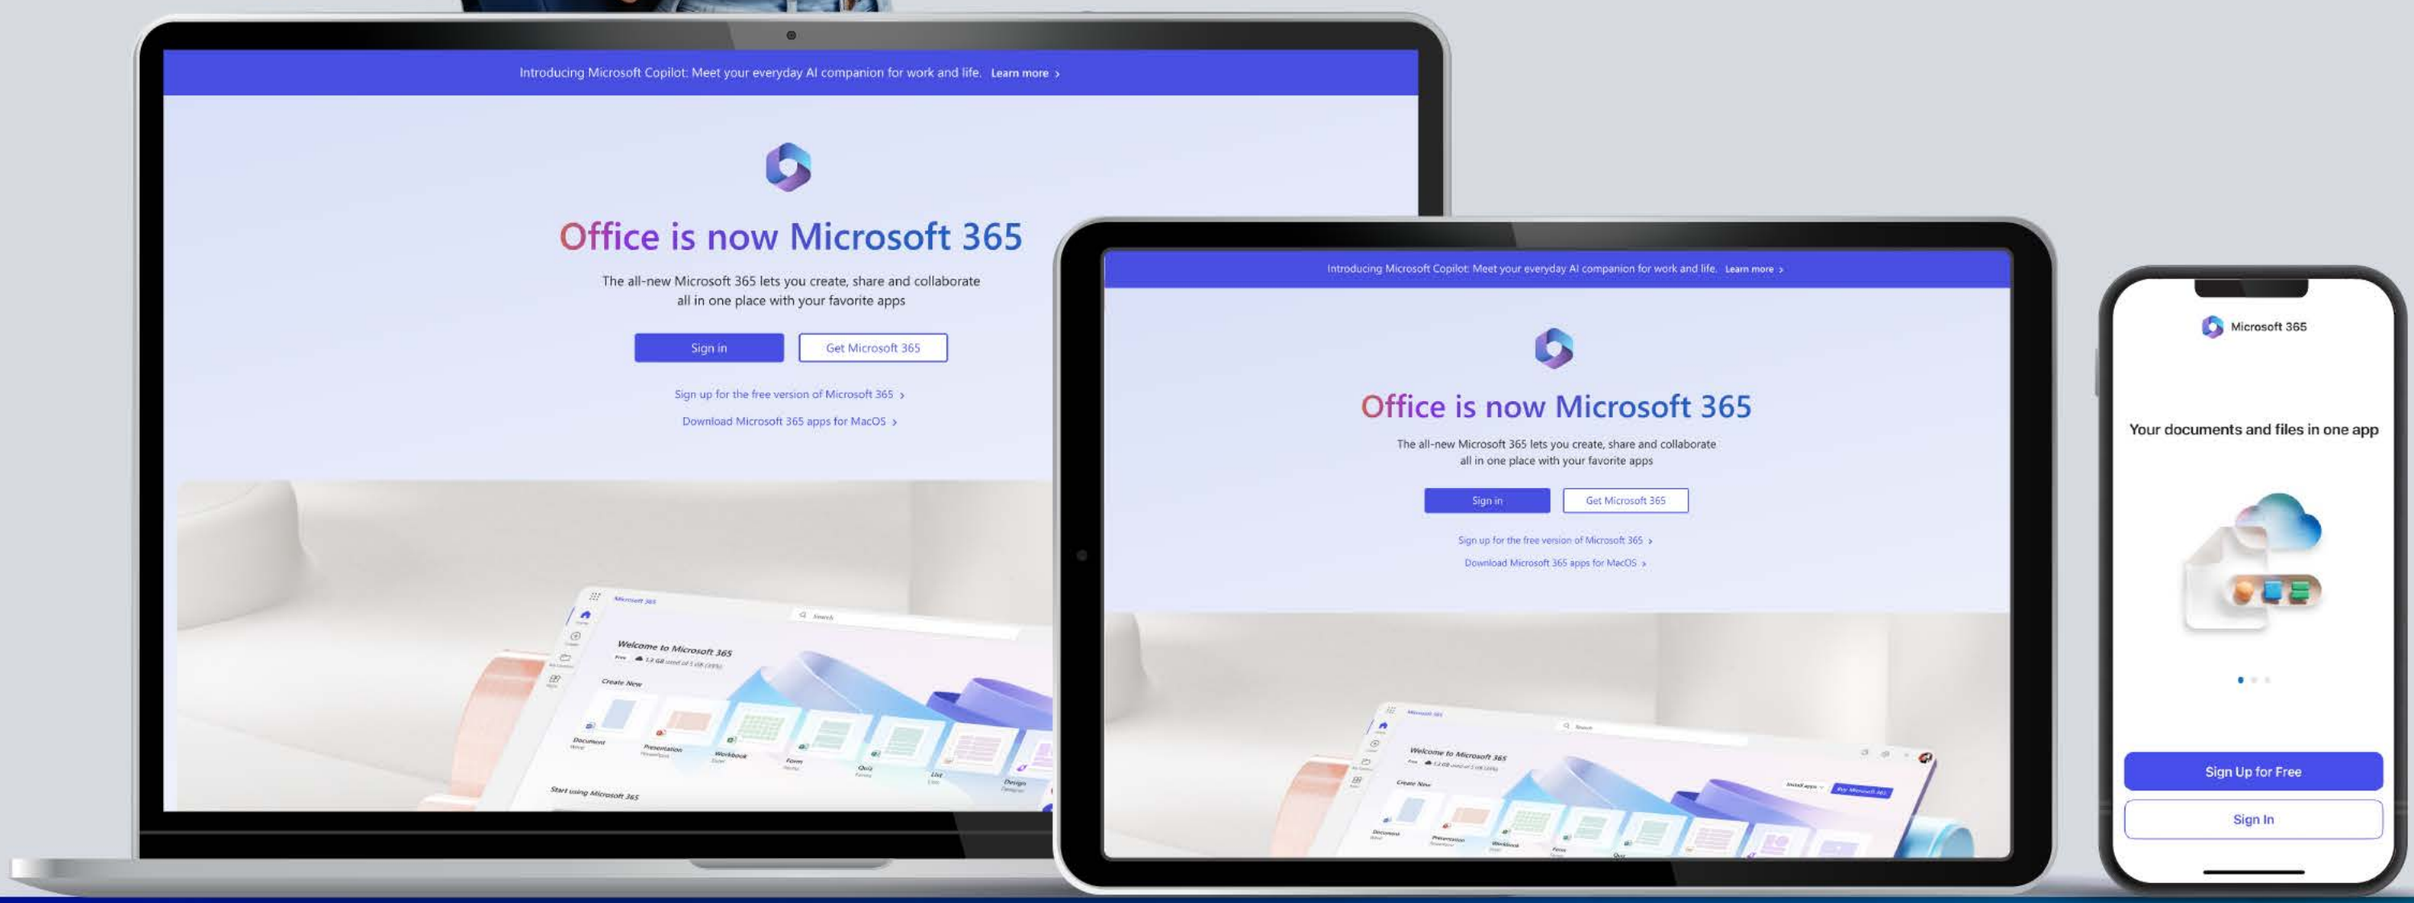
Microsoft 365 is a comprehensive suite of software with various functionalities, such as document processing.
It can be accessed both through applications on PCs and online via the Cloud system.

It can be installed on PCs, Macs, tablets, and smartphones
By using the service through logging into the system with your "KMUTT Account"
(name.surname@kmutt.ac.th)

on the website: **https://office.com**

Students are entitled to use the service for the duration of their studies, and the benefits of using the service may be reduced in accordance with the service policies of the product owner.

Access rights will be revoked once students graduate.



OneDrive

Personal Cloud Storage Service

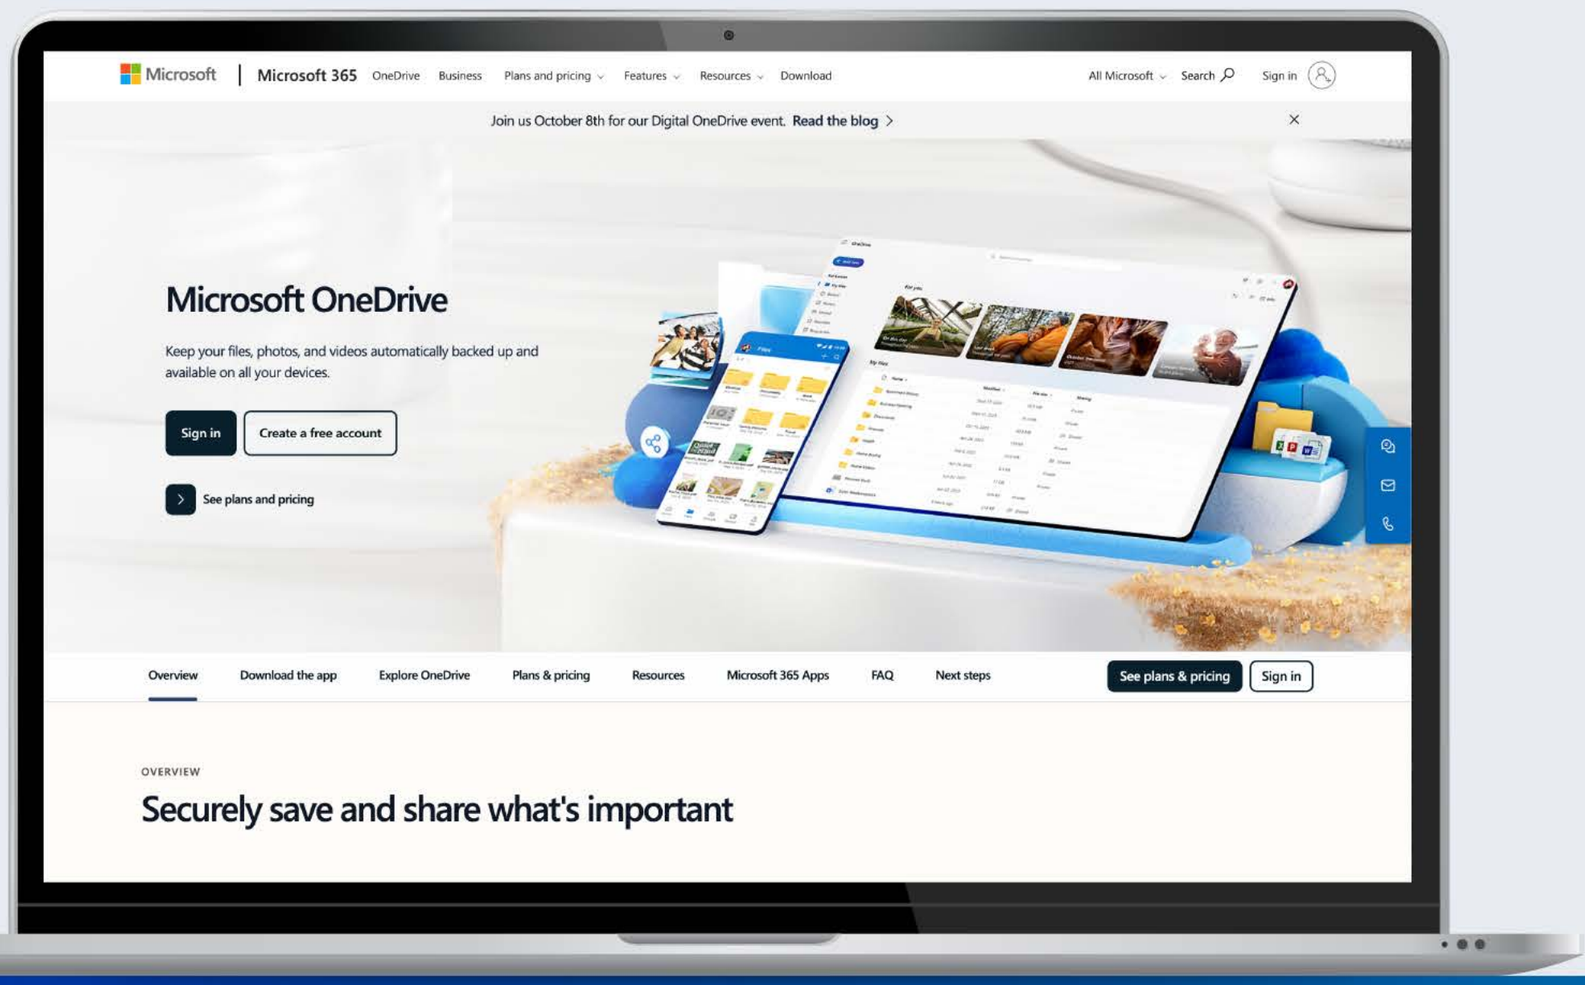
This service is provided for students of King Mongkut's University of Technology Thonburi,
allowing them to share files with others and access files to work from anywhere with an internet connection.

There is a storage space of 10 TB available,

and the allocation of space may change according to the service policies of the product owner.

By using the service through logging into the system with the “KMUTT Account”
(name.surname@kmutt.ac.th)

on the website: **https://office.com**



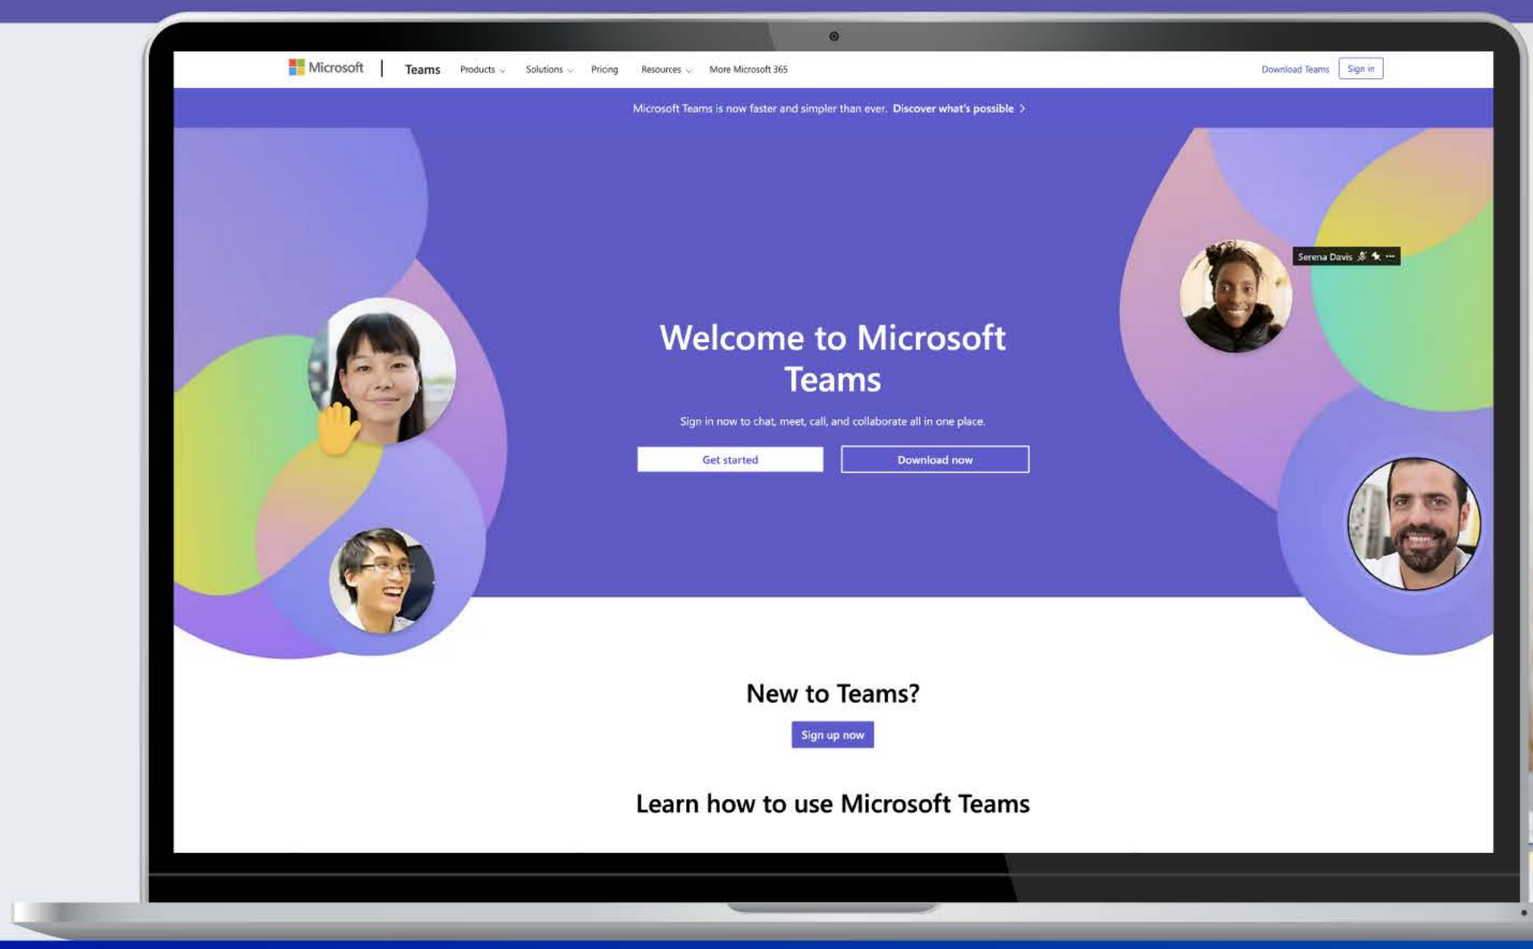
Microsoft Teams

Microsoft Teams is a collaboration app that helps teams stay organized and connected in one place.

Access the service by logging in with your “KMUTT Account”
(name.surname@kmutt.ac.th)

on the website: https://office.com

You can create your own teams, engage in group or private chats, share files, manage online meetings, and make calls, among other features.

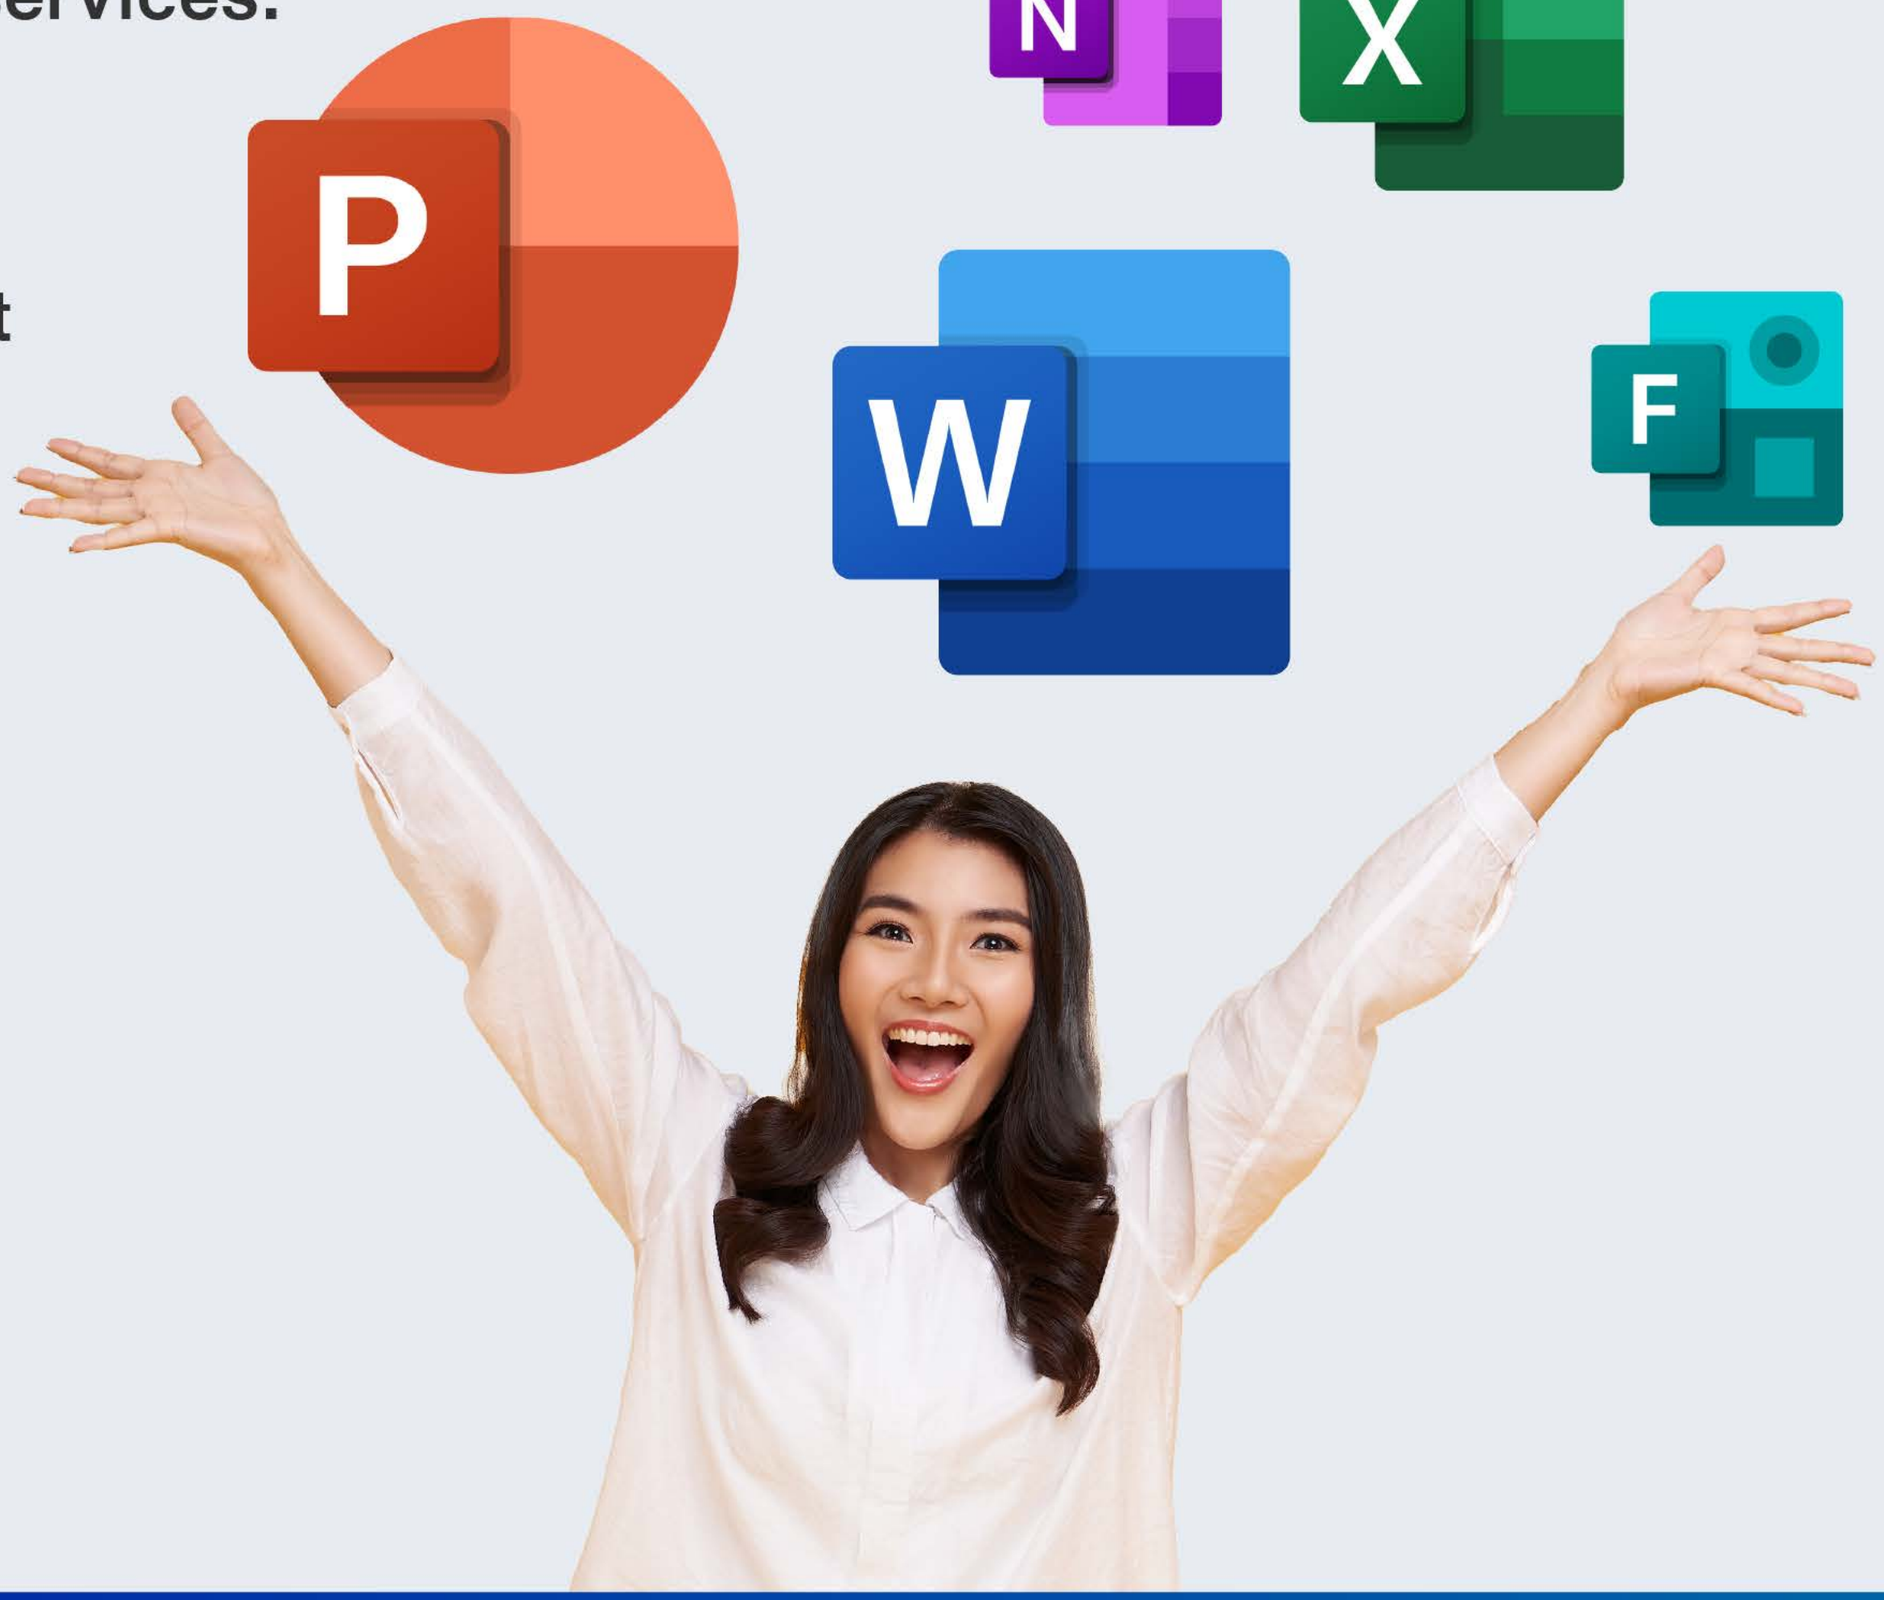


Other Apps and Services in Microsoft 365

Current students can use applications and services included in the Microsoft 365 suite on any device, compatible with both Windows and macOS. It supports both online and offline usage.

Examples of services.

- Word
- Excel
- PowerPoint
- OneNote
- Forms



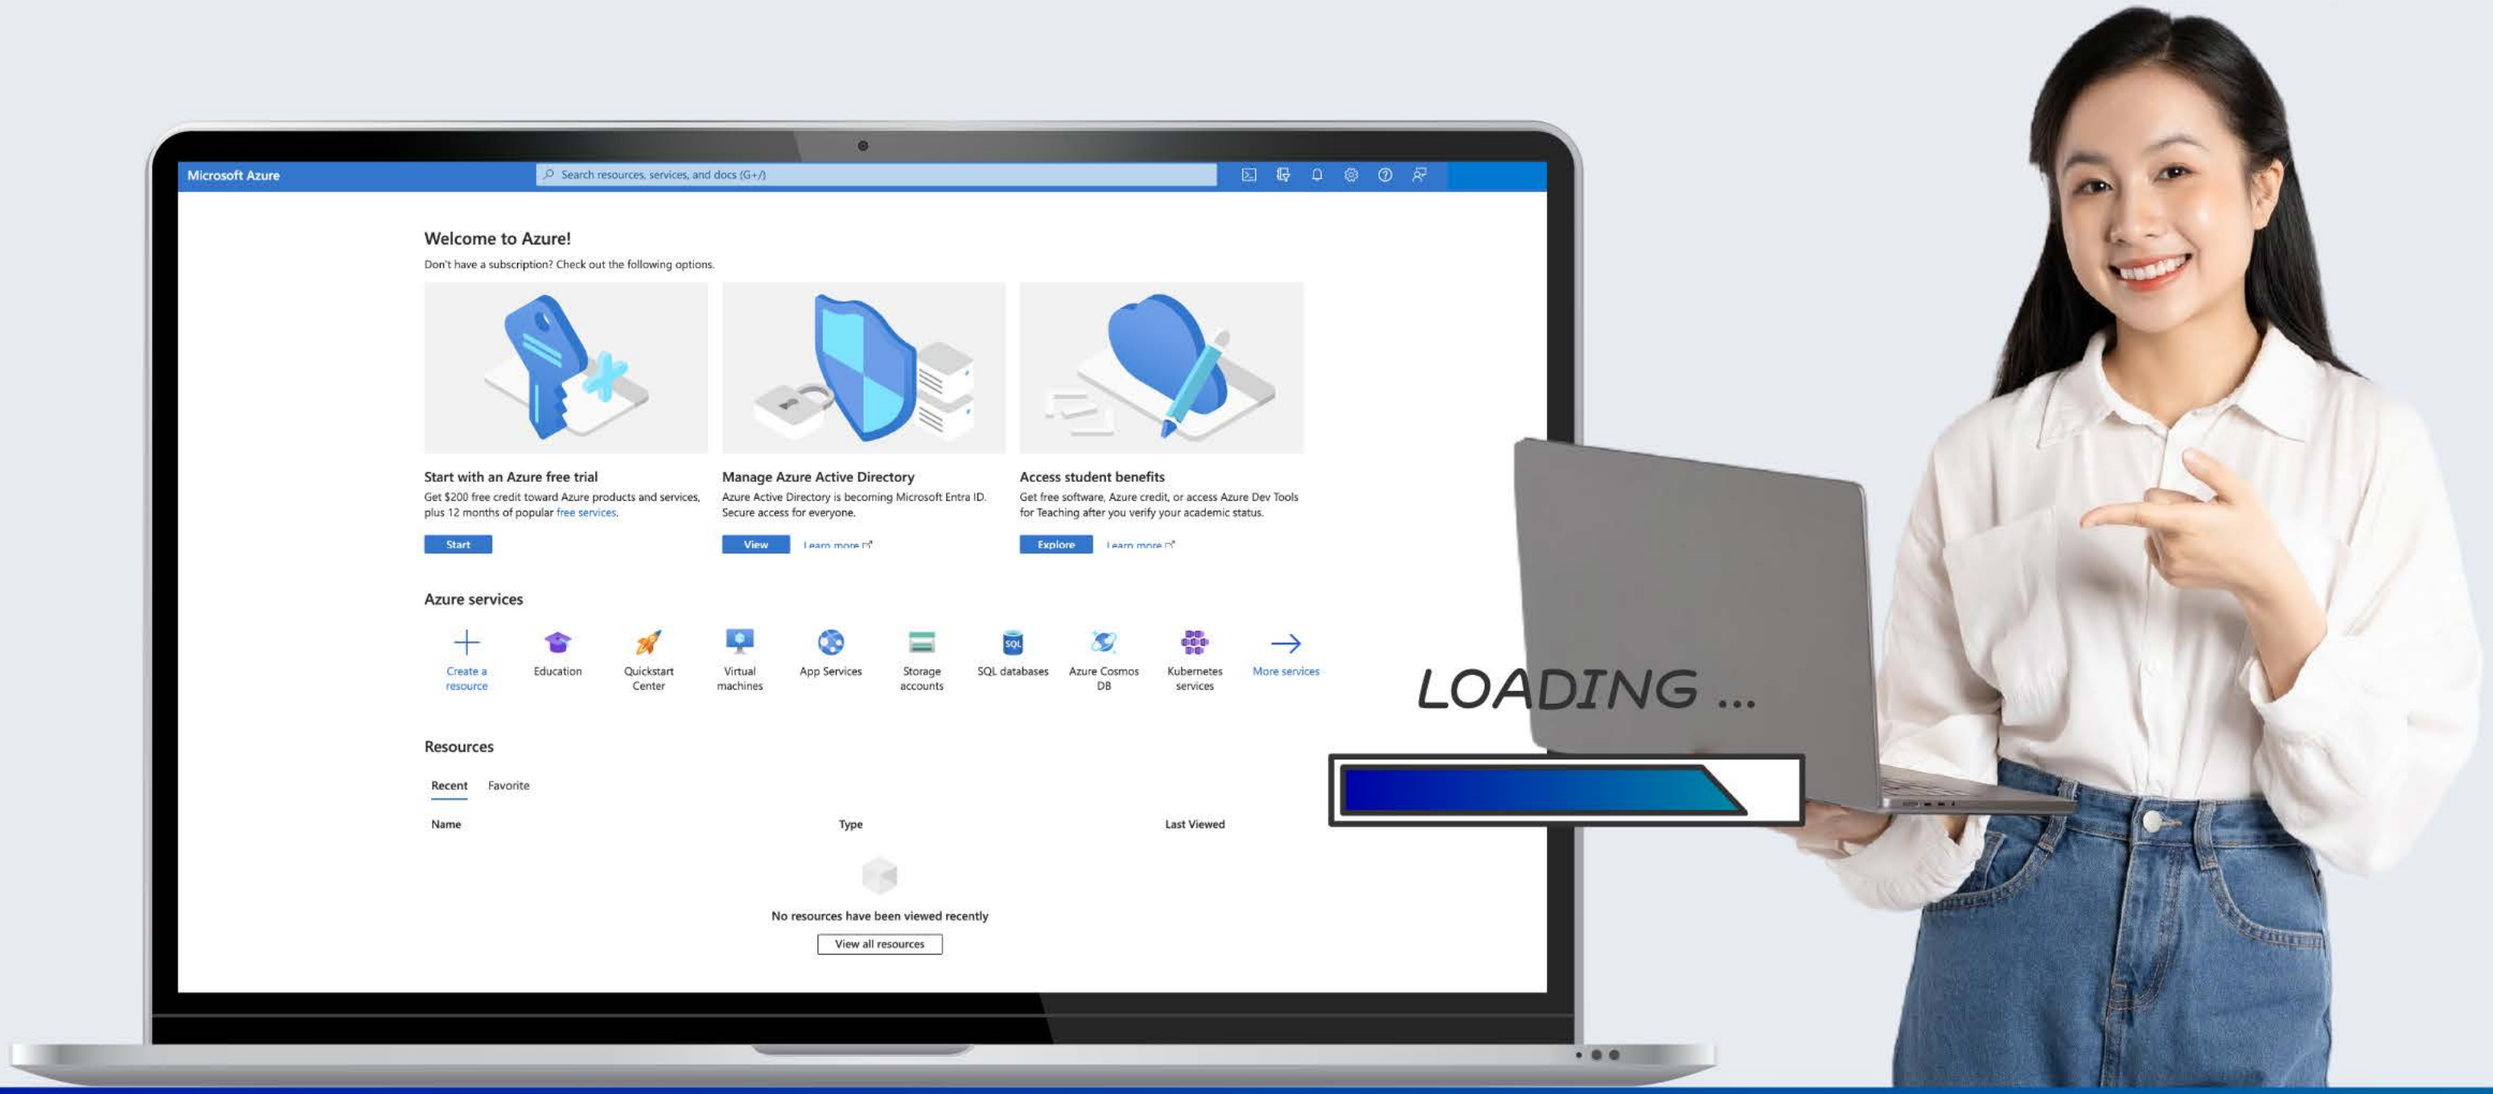
Azure Dev Tools for Teaching

Software license services to support the education of students at King Mongkut's University of Technology Thonburi.
You can download licensed Microsoft software on your own through the website.

By accessing the service through login using your "KMUTT Account"
(name.surname@kmutt.ac.th)

Refer to the software download guide on the website:

https://cc.kmutt.ac.th/AzureDev.html



KMUTT Software License

Licensed software services to support education for students of King Mongkut's University of Technology Thonburi.

Students can download and access the software using their "KMUTT Account"
(name.surname@kmutt.ac.th)

Consists of

- MATLAB®

  MATLAB is a programming platform specifically designed for engineers and scientists. At the core of MATLAB is its language (Code), which uses matrices to enable mathematical calculations in the most natural way.

  For more details on usage, please visit the website: https://cc.kmutt.ac.th/MATLAB.html

- **Adobe Creative Cloud**
  (KMUTT Software License Reservation) Limited quantity

  Adobe Creative Cloud Service is software used for design, media production, web creation, and film and audio creation. Students can request to borrow usage rights through the KMUTT Software License Reservation system.

  For more details on usage, please visit the website: https://cc.kmutt.ac.th/LicenseReservation.html

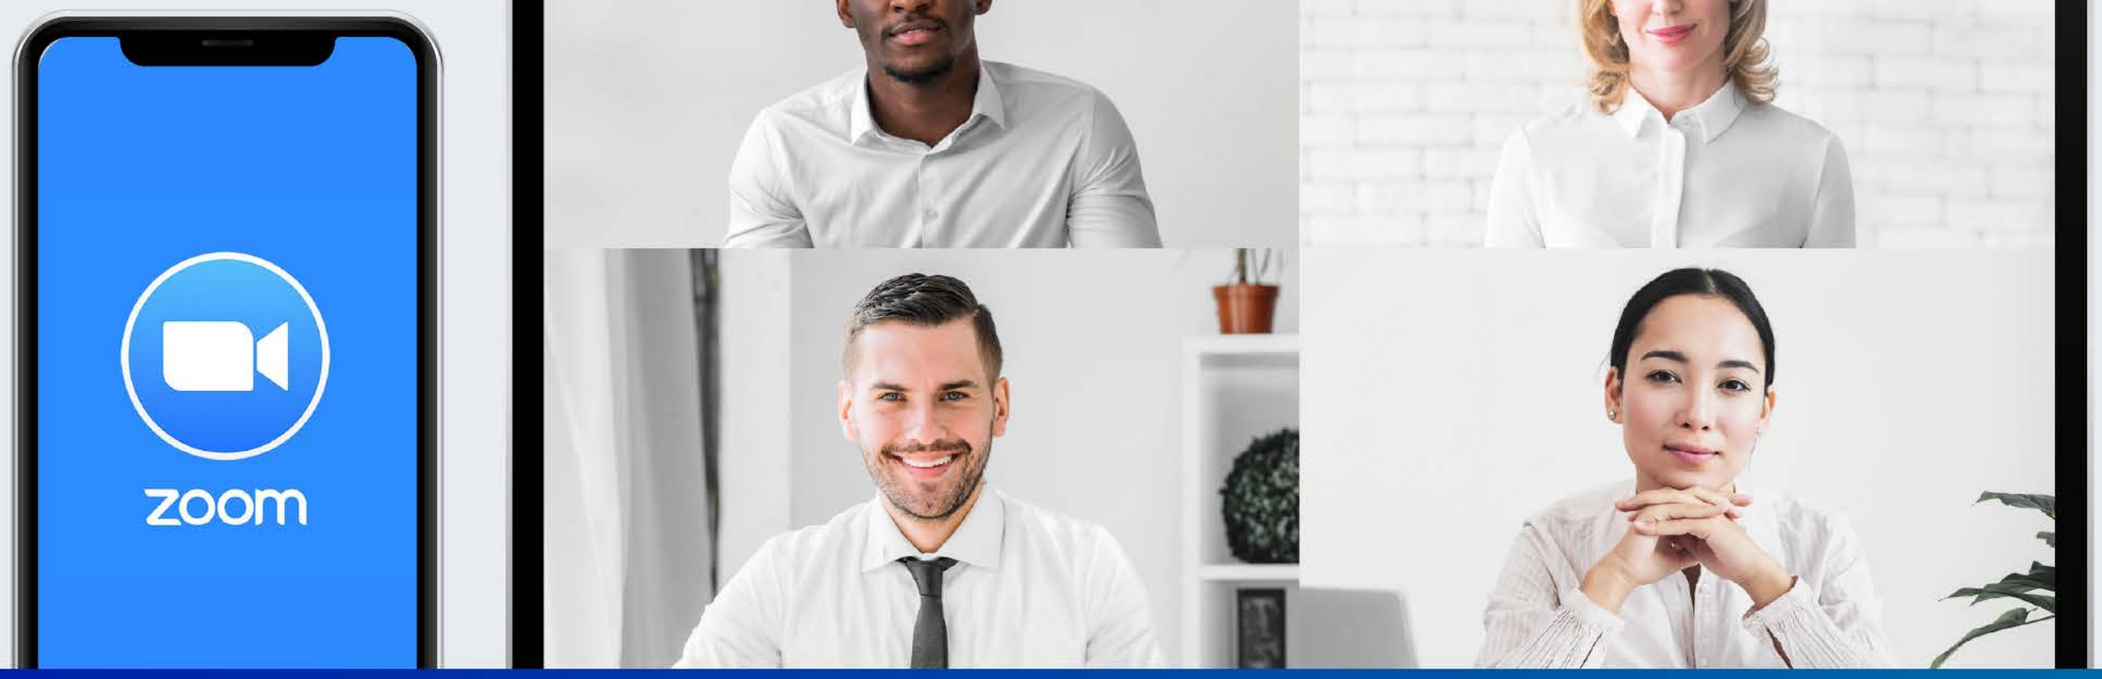
Zoom Cloud Meeting

Zoom is an application that allows you to conduct meetings
and seminars online using a computer, smartphone, or tablet.

It can be used for meetings with both video and audio (Video Conference)
or for audio-only meetings via phone (Conference Call).

Students can access Zoom using their "KMUTT Account"
(name.surname@kmutt.ac.th)

You can find more information on the website: https://cc.kmutt.ac.th/Zoom.html



Google Service

User account services, or Google Accounts, and various services provided by Google are available for students of King Mongkut's University of Technology Thonburi.

Usage rights will be revoked after students graduate

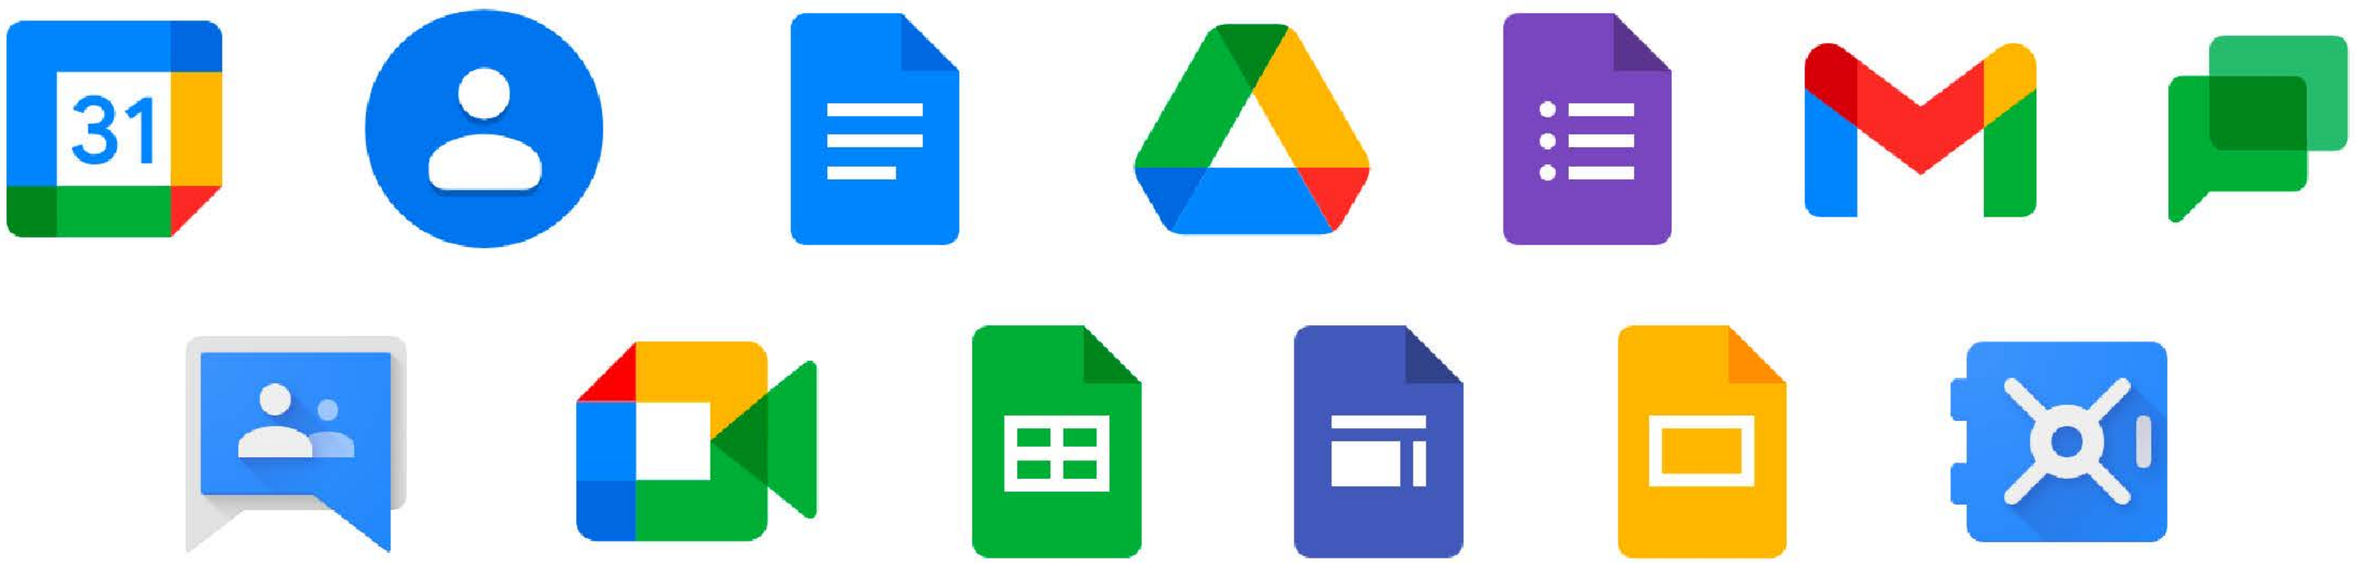
Students use their accounts to verify their identity for accessing services,
formatted as **name.surname@mail.kmutt.ac.th** (the first four letters of the surname).
In cases of duplication, additional letters from the surname will be added.

The total storage space per account is 10 GB,

and the allocation of space may change according to the service policies of the product owner.

You can access the service using the username name.surname@mail.kmutt.ac.th and "the same password as your KMUTT Account "

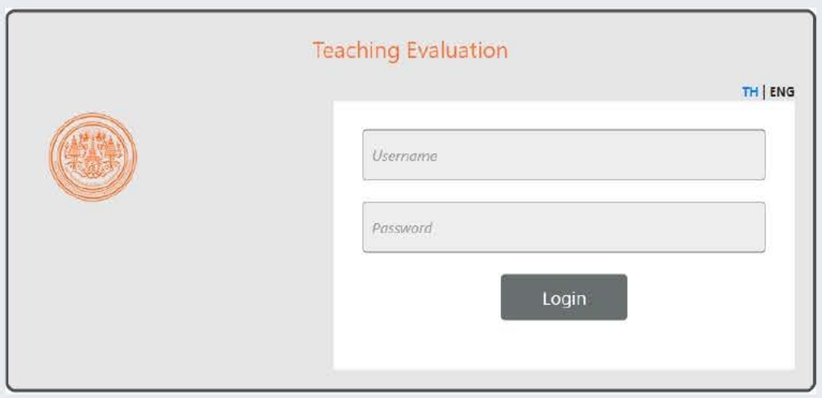
on the website: https://gmail.com



Information System for Students

The Information System for Students of King Mongkut's University of Technology Thonburi consists of

- Student Information System: New ACIS
- New Student Record System



- Teaching Evaluation System
